

X International School on Thermoelectricity

school2019.inst.cv.ua

The School is dedicated to the 25th anniversary of the establishing of the International Thermoelectric Academy

The Organising Committee of the X International School on Thermoelectricity invites leading specialists, young scientists, doctoral students, post-graduate students and students for participation in its work.

Organisers of the school are: Institute of Thermoelectricity of the National Academy of Sciences and the Ministry of Education and Science of Ukraine, Chernovtsy National University International Thermoelectric Academy and the Ukrainian Thermoelectric Society

The school will be held on September 11-14, 2019.

The venue of the school is Institute of Thermoelectricity, Chernivtsi, Ukraine.

Yu. Fedkovych Chernivtsi National University

The working languages of the school are English, Ukrainian and Russian (simultaneous translation).

Topics to be discussed:

Recent achievements and prospects of development of the following trends:

- theory of thermoelectric energy conversion;
- thermoelectric material science;
- theories of thermoelectric materials;
- technology of manufacturing of thermoelements and modules;
- thermoelectric generators: theory, design, applications;
- thermoelectric generators utilizing waste heat;
- thermoelectric coolers and conditioners: theory, design, applications;
- thermoelectric measuring instruments and devices: theory of devices, design, applications;
- reliability of thermoelectric devices;
- prospects of mass applications of thermoelectricity;
- other trends suggested by the participants.

Lectures. According to the Programme of the school, the leading specialists in thermoelectricity, academicians and associates of the International Thermoelectric Academy, will deliver a series of lectures on the current trends in thermoelectricity.

Scientific reports on the subject of the school (15 minutes long) are planned. Reports in the form of articles, after being reviewed, will be published in the *Journal of Thermoelectricity*, which is part of **Scopus** scientific and metric base.

[The School programme](http://school2019.inst.cv.ua/program_school2019_eng.pdf) will be finalized before July 1, 2019. Please follow the program formation at http://school2019.inst.cv.ua/program_school2019_eng.pdf

Registration fee for school participants is 200 USD. Discounts for students and participants are possible if needed.
